## SUMMARY

Dedicated Frontend Developer with proven experience in Vue.js development and a solid foundation in Informatics Engineering from Bina Nusantara University. Specialized in building responsive and interactive web applications using Vue.js, Vuex, and
Vue Router. Profcient in developing optimized user interfaces with Vue.js component libraries while ensuring cross-browser compatibility. Skilled in implementing efcient application logic through Vue.js best practices and collaborating with backend teams to integrate RESTful APIs. Combines technical expertise with strong problem-solving abilities and effective team communication to deliver high-quality, scalable web solutions that enhance user experience.

## EXPERIENCE

**Front-End Developer** 07/2025 - Present

PT. Adi Data Informatika (Penempatan: Bank Indonesia)

- Developing User Interfaces (UI) to enhance user experience using Vue.js components and frameworks.
- Building responsive and interactive web applications with Vue.js, Vuex for state management, and Vue Router for efficient navigation.
- Organizing application logic to ensure applications run efficiently, maintainable, and easy to understand by following Vue.js best practices.
- Implementing Vue.js component libraries and ensuring cross-browser compatibility.
- Performing regular code maintenance to ensure smooth application performance and minimize bugs.
- Optimizing Vue.js applications for maximum speed and scalability.
- Developing CRUD functionalities and building APIs to integrate with various systems and applications.
- Collaborating with backend developers to integrate RESTful APIs with Vue.js frontend.
- Applying Agile methodologies (Scrum/Kanban), participating in daily stand-ups, sprint planning, sprint reviews, and retrospectives to ensure structured and adaptable development processes.
- Working closely with UI/UX designers to translate designs into functional and visually appealing interfaces.
- Conducting code reviews to maintain code quality and consistency across the team.

**Front-End Developer** 09/2022 - 07/2025

Experd Consultant

- Developing User Interfaces (UI) to improve user experience using Vue.js components and frameworks.
- Building responsive and interactive web applications with Vue.js, Vuex for state management, and Vue Router.
- Organize Application Logic to ensure applications run efciently and are easy to learn through Vue.js best practices.
- Implementing Vue.js component libraries and ensuring cross-browser compatibility.
- Perform regular Code Maintenance to ensure the application runs smoothly and without bugs.
- Optimizing Vue applications for maximum speed and scalability.
- Building CRUD APIs that help integration with various other systems and applications.
- Collaborating with backend developers to integrate RESTful APIs with Vue.js frontend.

**Internship** 08/2021 - 02/2022

INDEPENDENT CAMPUS

- Basic understanding of data analysis and introduction to data analysis tools.
- Improve basic understanding of data analysis.
- Develop data analysis skills.

- Increase efciency in the use of data analysis tools.

**Internship** 01/2021 - 07/2021
BANGKIT ACADEMY LED BY GOOGLE
- Introducing the concept of Cloud Computing.
- Understand Cloud platforms.
- Manage resources effectively.
- Contribute to the development of Cloud Computing capabilities.

## EDUCATION

**Computer Science** 09/2018 - 10/2022
Bina Nusantara University - Bachelor's degree
Graduated on time, did assignments according to deadlines, got good grades on report cards and attendance.

## CERTIFICATES

**ITP TOEFL** 07/2025 - 07/2027
Centre of Language Improvement
Score: 600

## SKILLS

| | |
|---|---|
| Vue.js | Responsive Design |
| HTML | Git |
| CSS | Bootstrap |
| REST API | Node.js |
| GIT | Responsive Design |
