Frontend Developer, specialized in Vue.js ecosystem.

EXPERIENCE

PT. Adi Data Informatika (Bank Indonesia) | Frontend Developer

July 2025 – Current | Jakarta, ID

- **Vue.js UI Development –** Building responsive and interactive web applications using Vue.js, Vuex for state management, and Vue Router for seamless navigation.
  - Co-developing CRUD functionalities and integrating RESTful APIs with backend services to support Bank Indonesia's digital systems.
  - Optimizing Vue.js applications for maximum speed, scalability, and cross-browser compatibility following Vue.js best practices.
  - Collaborating closely with UI/UX designers to translate designs into functional, visually polished interfaces.
  - Conducting code reviews to uphold code quality and consistency across the development team.
  - Applying Agile/Scrum methodologies — daily stand-ups, sprint planning, reviews, and retrospectives.

▸ **Key Project: DWP (Digital Workplace)**

An internal information system supporting strategic decision-making for the Board of Governors of Bank Indonesia. Features an integrated executive dashboard with real-time economic & monetary indicators, digital document management for policies and meeting minutes, cross-departmental collaboration tools, and an automated approval workflow.

Stack: Vue.js · Vuex · Vuetify · Bootstrap · CKEditor · Aspose · JavaScript · HTML · CSS

▸ **Key Project: DBP Opex MAPP**

An IT procurement project for Bank Indonesia (FY 2025) focused on developing and maintaining an operational application leveraging in-memory database technology to maximize digital operational efficiency.

Stack: Vue.js · Vuex · Pinia · Quill · Vuetify · Bootstrap · JavaScript · HTML · CSS

▸ **Key Project: KKS (Keamanan & Ketahanan Siber)**

A mandatory cybersecurity compliance system for payment system operators and financial institutions under Bank Indonesia supervision (PBI No. 2/2024). Covers governance, threat prevention, incident response, and annual audit reporting to safeguard national financial system stability.

Stack: Vue.js · DevExtreme · Razor · JavaScript · HTML · CSS

Experd Consultant | Frontend Developer

September 2022 – July 2025 | Jakarta, ID

- **Vue.js Frontend Engineer –** Worked for nearly 3 years building and maintaining enterprise web applications with Vue.js, Vuex, and Vue Router.
  - Implemented Vue.js component libraries ensuring cross-browser compatibility and responsive design across all devices.
  - Built CRUD APIs facilitating integration with various third-party systems and internal applications.
  - Optimized Vue application performance for speed and scalability; performed regular code maintenance to minimize production bugs.
  - Collaborated with backend developers to integrate RESTful APIs and ensured smooth data flow between frontend and server.

EDUCATION

BINA NUSANTARA UNIVERSITY
Bachelor of Computer Science
Intake 2018, Graduated 2022

TECHNICAL STACK

Languages

- JavaScript
- TypeScript
- HTML
- CSS

Frameworks & Libraries

- Vue.js (2 & 3)
- Vuetify
- Bootstrap
- Tailwind CSS
- Node.js

Tools & Integration

- REST API
- Git
- Postman
- Swagger
- Responsive Design

Project Management

- Jira
- Figma
- Agile / Scrum

Methodologies

- Component-Driven Dev
- Cross-Browser Testing
- Code Review

LANGUAGES

English Intermediate
Indonesian Native

Independent Campus (Kampus Merdeka) | Internship
August 2021 – February 2022 | Remote

- Developed foundational data analysis skills and gained hands-on experience with data analysis tools and workflows.

Bangkit Academy led by Google | Internship
January 2021 – July 2021 | Remote

- Studied Cloud Computing fundamentals, learned to understand Cloud platforms and manage cloud resources effectively.

CERTIFICATIONS

ITP TOEFL | Score: 600
July 2025 – July 2027 | Centre of Language Improvement
